Subject: Re: Grumman: HDR FS Activities Updates

Lorenzo

I am out today. Parents weekend for my oldest son. I will call on Monday if okay. We were hoping for a late October update on the engineering analysis but will likely be in a couple weeks or so. Scheduling this is being completed now.

I have CC'd Don on this email if you need additional information

Thanks
Jason

Good Morning, Jason,

Just following up on my voicemail left on your office phone yesterday to get a status update on HDR FS or its 3 components, Drilling Program, GW Modelling, and FS/Detailed Engineering Analysis. I believe the schedule you provided at the 9-11-17 NWIRP-Northrop Grumman 2nd GW Quarterly Meeting anticipated late October 2017 for public meeting on status of field activities, December 2017 for more comprehensive 2nd public meeting, and mid-2018 for FS/PRAP public meeting.

Also, the Navy was to send to NYSDEC the locations of the properties that they have identified for the RE-108 systems. If they have, can you provide them to me.

Thanks, Jason.

Lorenzo
